

Hedgehog Quaker

Mary and I both love the Quaker medallions that adorn so many of the Quaker samplers. We appreciate the simplicity in the design and have used them as a basis for our Quaker of The Month series. Recently we had the idea to use them as a base around which we could create animals and other sampler motives. This is the very first of many in our possible alphabet series to come. We give this to you as a replacement for the October Freebie that many of you were expecting. We hope you enjoy it. Look for Quaker Rabbit and others to follow. We will publish some and give some away as freebies on the web site.

Candy and Mary

Our first quaker critter, *Hedgehog Quaker*, was stitched on Lakeside Linen's #36 count Palimino using Caron's Waterlilies in Copper. The stitch count is 30 high by 51 wide.
